**AIR - CONDITIONING &
REFRIGERATION L.L.C.**

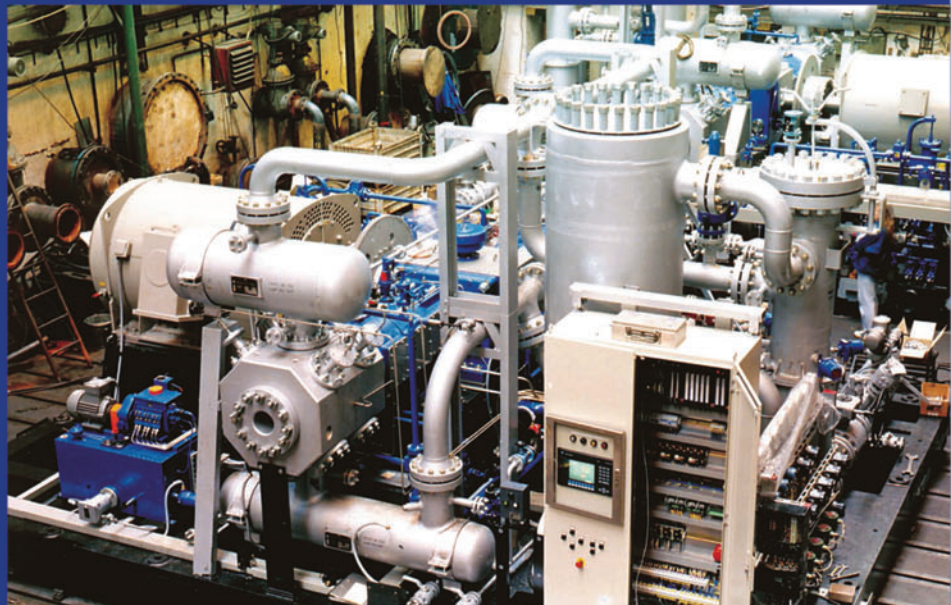

**“We are specialist in Compressor,
Skid packaging, Industrial Refrigeration,
Gas Compression, Process Cooling,
Turbine Inlet Cooling, Using Screw,
Centrifugal, Reciprocating & Turbo
Compressor Technology”**

GAS COMPRESSION

Winter has extensive experience in designing and manufacturing Industrial Refrigeration Packages for Oil & Gas Industries.

VARYING MARKET DEMAND

Delivering Turn-key projects for process industries like Chemicals, Power and Oil & Gas sector is one of our core business competency. Armed with in-depth engineering expertise, high performance equipment and modern manufacturing-processes, Winter meets the varying market demands in cross-industrial applications.

CONTROLS OF CRITICAL PROCESS

Dealing with the latest technology and critical application of Industrial Refrigeration in Oil & Gas Industries, WINTER ensures stringent Quality, Safety and Environmental Standard are implemented in addition to demanding operational, reliability and efficiency criteria.

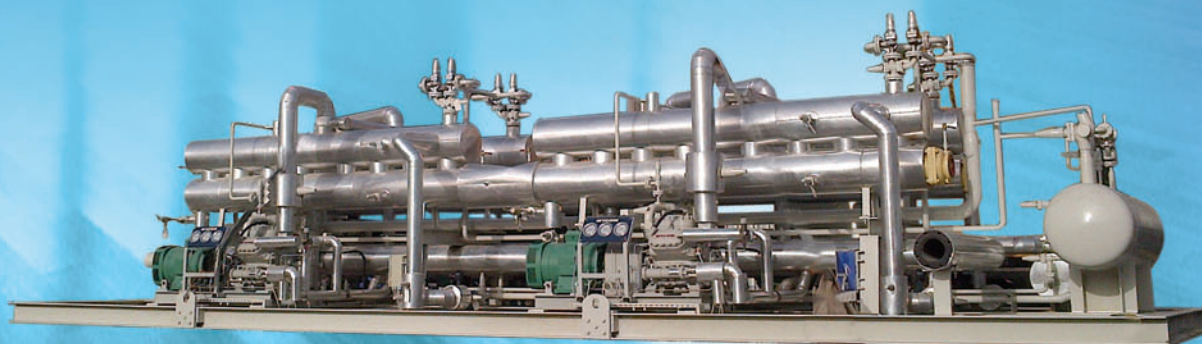

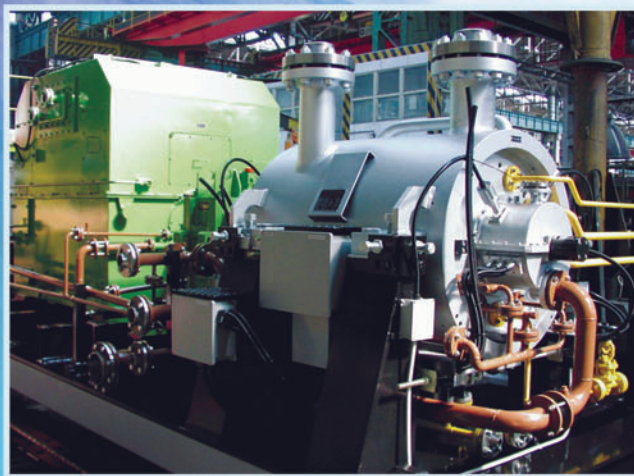

WINTER believes that advanced engineering acumen and expertise is needed to meet the robust & state-of-the-art industrial requirements.

CHALLENGE FOR EXCELLENCE

At WINTER AIR-CONDITIONING AND REFRIGERATION, we take a flexible approach in Designing and Manufacturing Industrial Refrigeration for Oil and Gas Industries to meet the varying Customer requirements and Market Demands.

Our Industrial Refrigeration packages do comply with all applicable internationally recognized codes and standards including, ASME,API,TEMA,ANSI etc.and, but not limited to, customer specification requirements.

HIGH PERFORMANCE LOW POWER CONSUMPTION PROCESS CHILLER

**Winter totally custom design
industrial Cascade chiller
system, drive down costs
and increase energy
efficiency.**

**With cascade chiller
systems we reduce
energy usage.**

Our business is in ensuring your business...

RELIABILITY MATTERS

Increased dependability /or/ High Availability
Reiterative quality checks, well-defined processes, high industry standards, state-of-art equipment and in-depth engineering coupled with a strong attitude towards quality ensure that our customers can focus on their business and not worry about downtimes.

From fail-safe design to completely fault-tolerant redundant systems promising an availability of 99.98% you always have a wide range of choice to suit your application whether it's a mission critical application straining on resources or an ex-zone requirement, we have the right answer for all your requirements.

API 661 AIR COOLED
CONDENSER

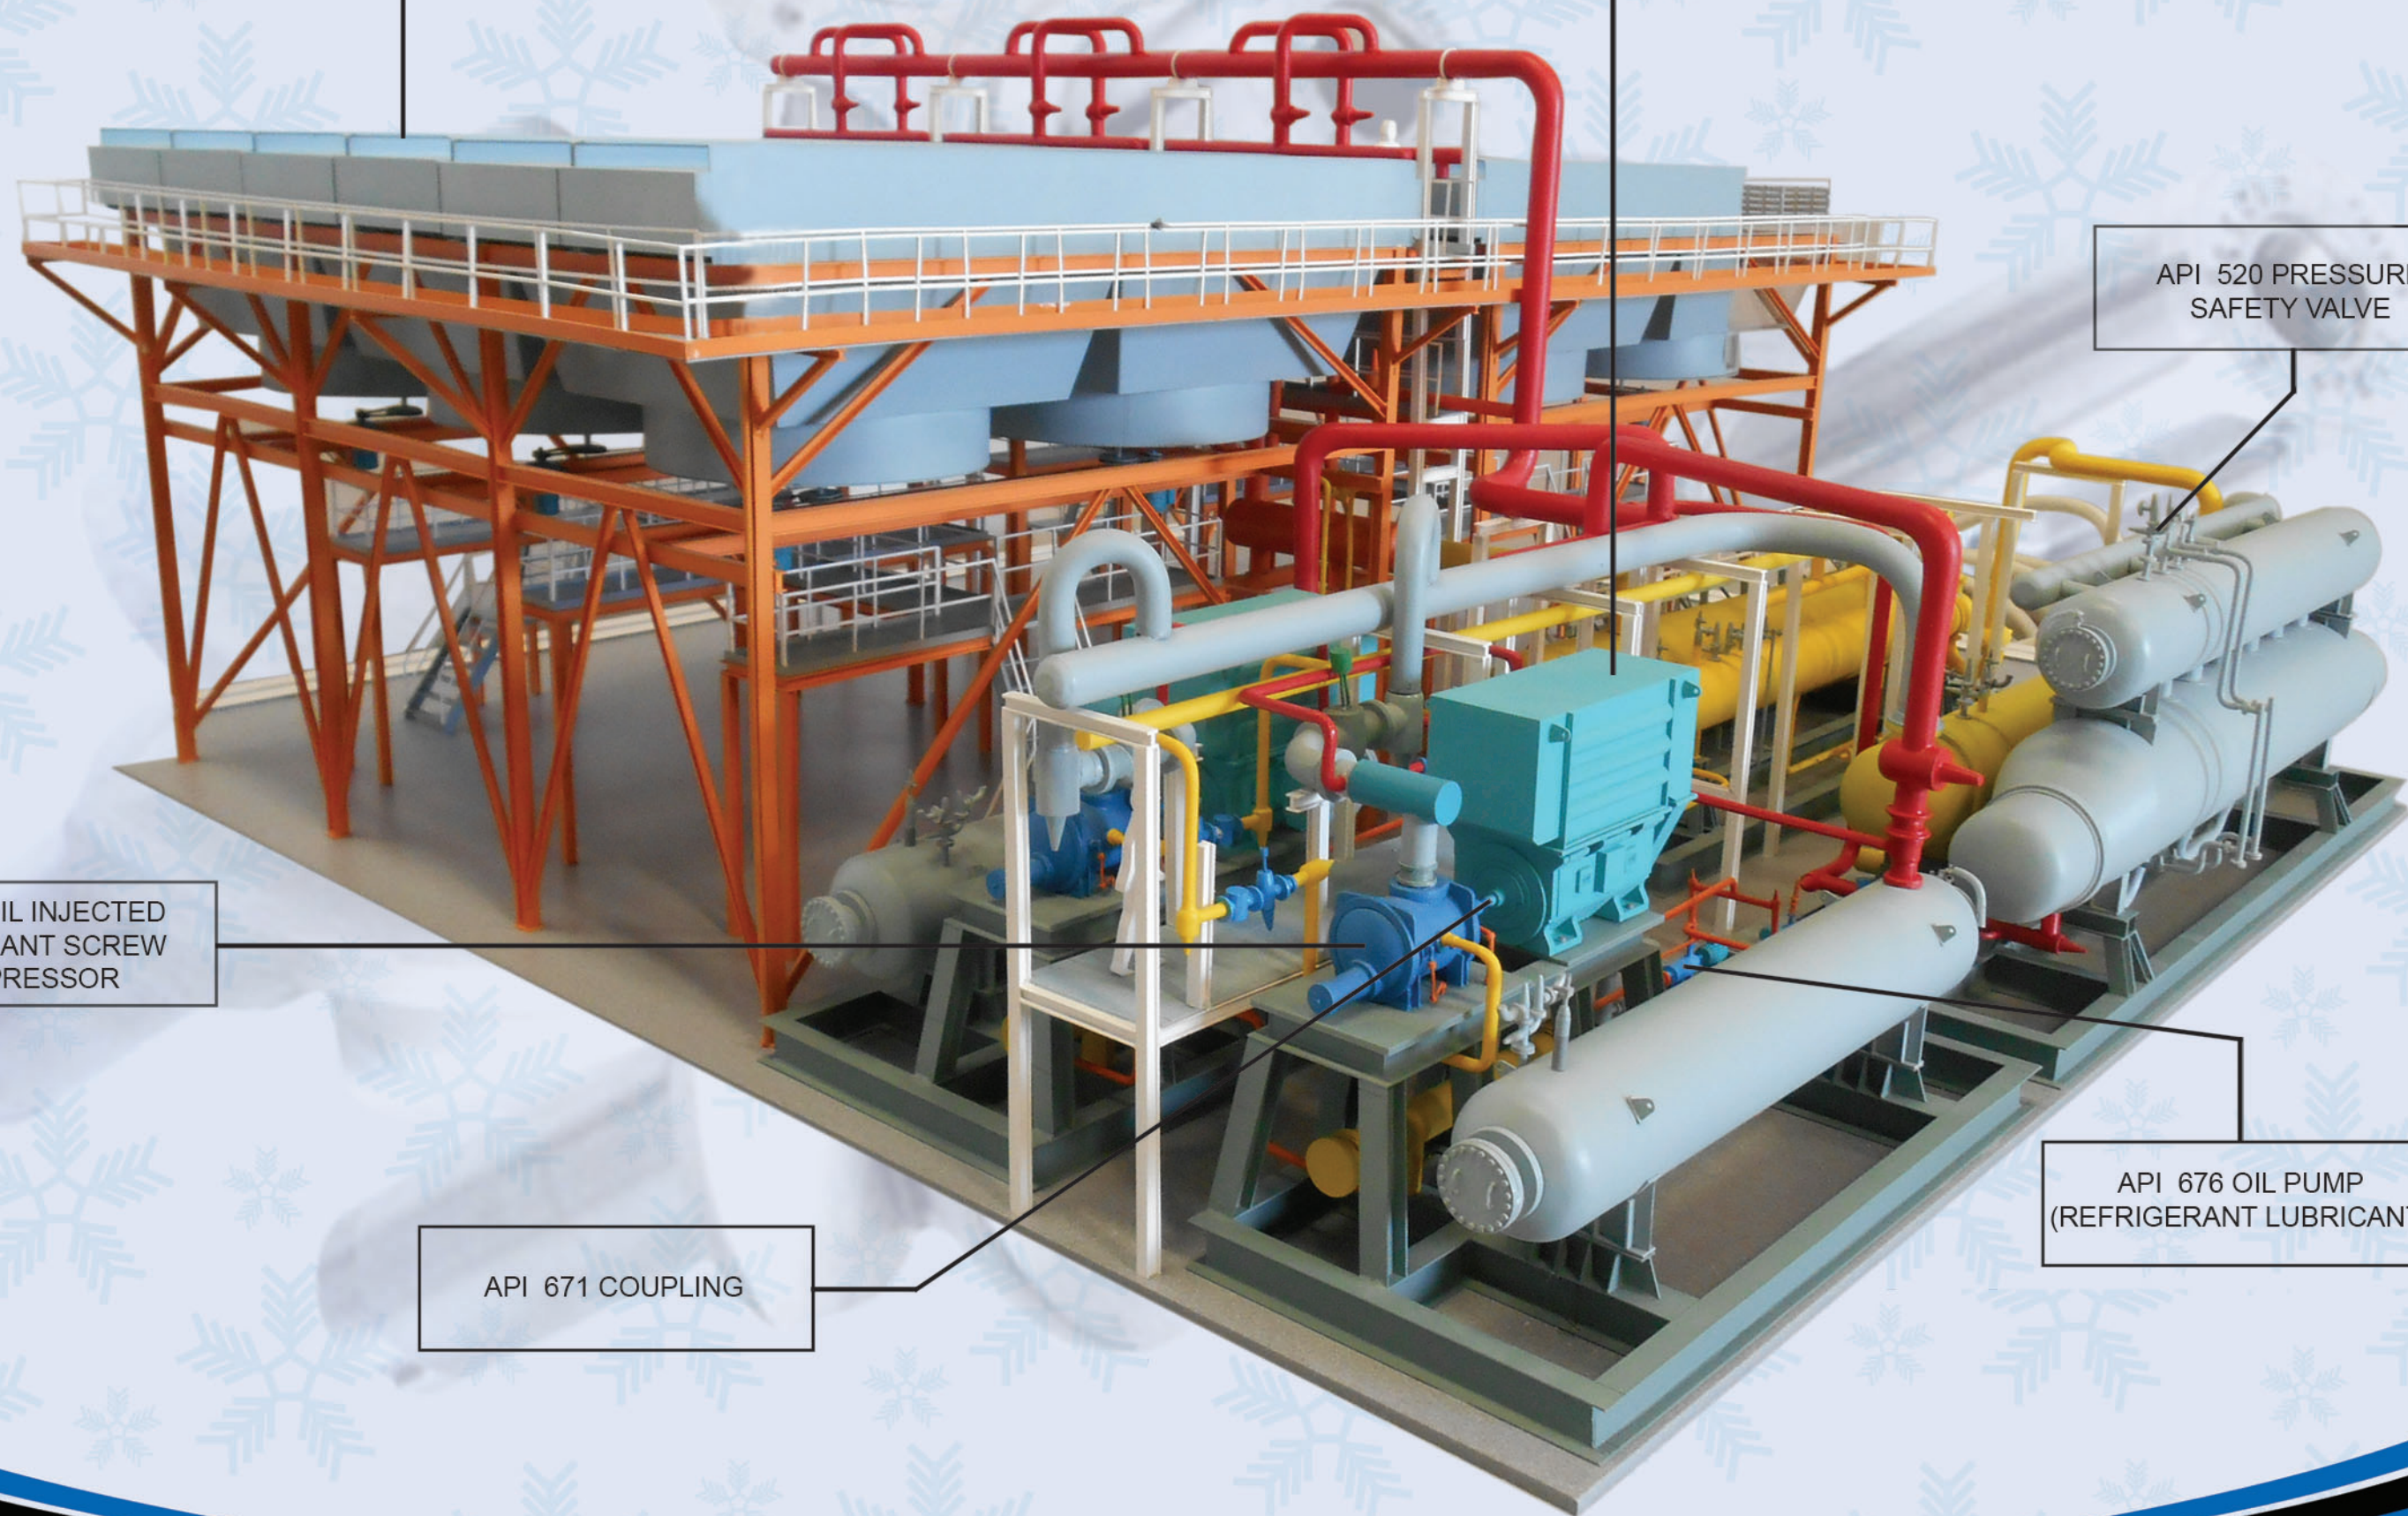

API 547 ELECTRIC MOTOR
COMPRESSOR DRIVE

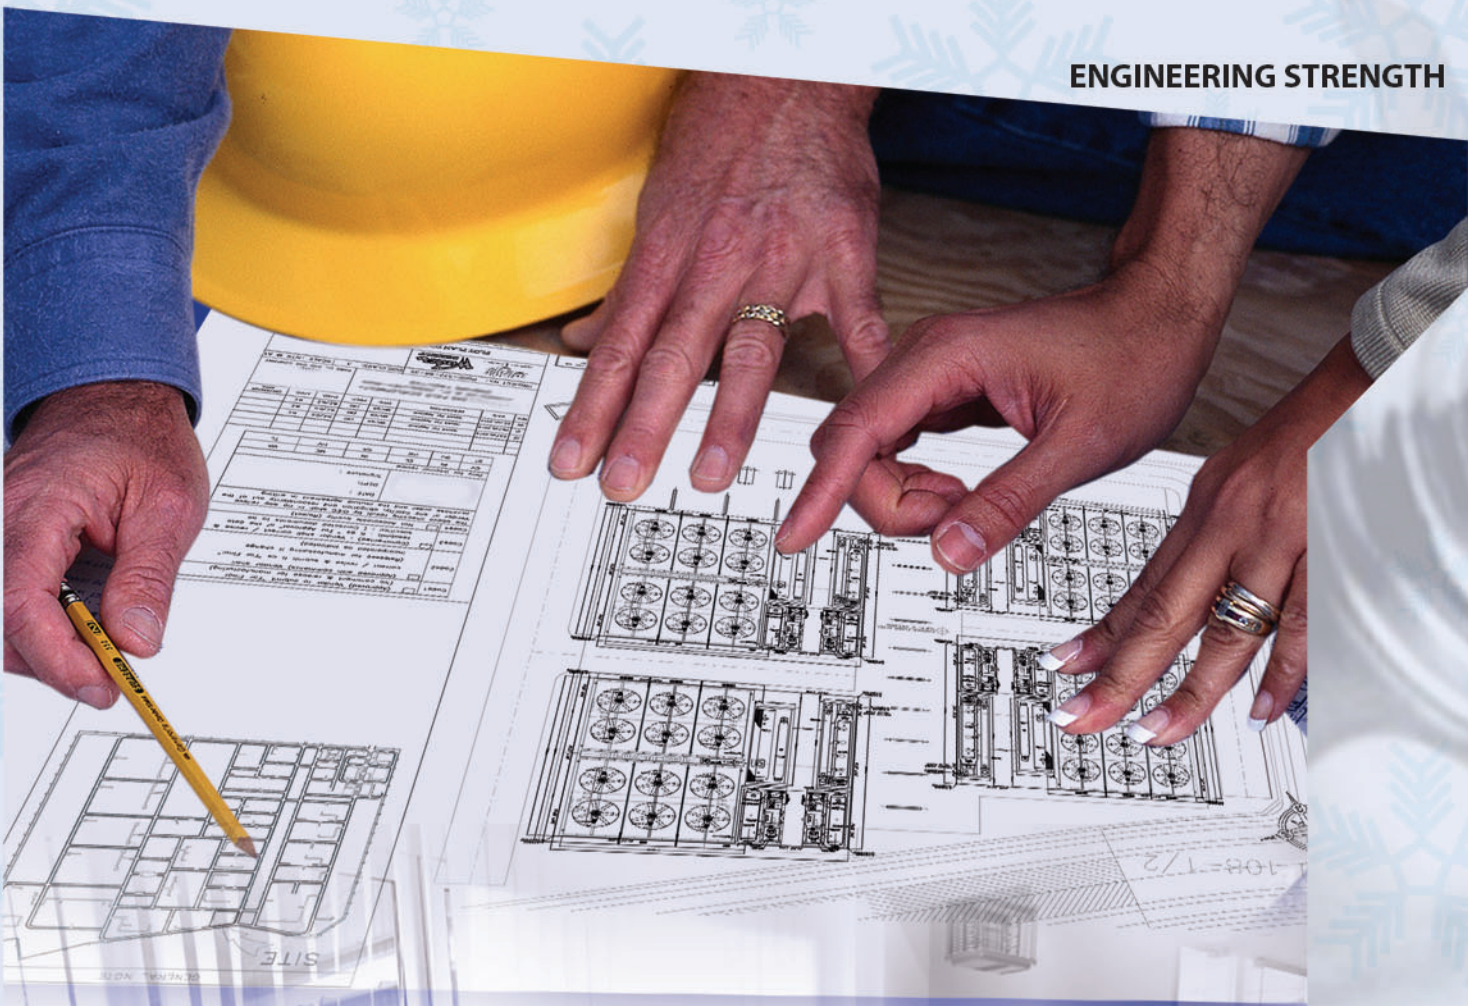

API 520 PRESSURE
SAFETY VALVE

API 619 OIL INJECTED
REFRIGERANT SCREW
COMPRESSOR

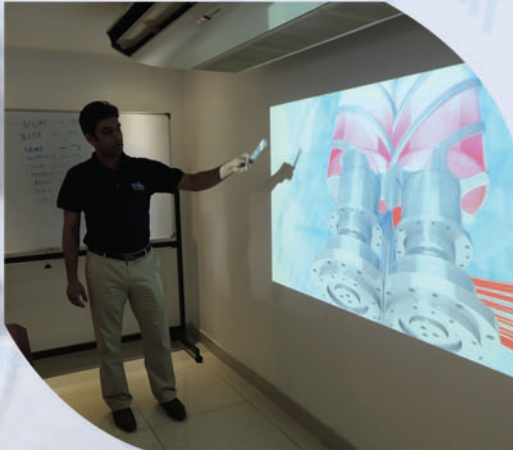

API 671 COUPLING

API 676 OIL PUMP
(REFRIGERANT LUBRICANT)

Excellence Integrated

We take pride in our culture which is built up on professionalism, highest standards of training and team-work. With no walls and doors between members of our family, we create strong bondages that ensure flawless workflows while fostering innovation and creativity.

While the corporate culture ensures a healthy work environment, our training and knowledge sharing sessions ensure growth for both the employee and the company.

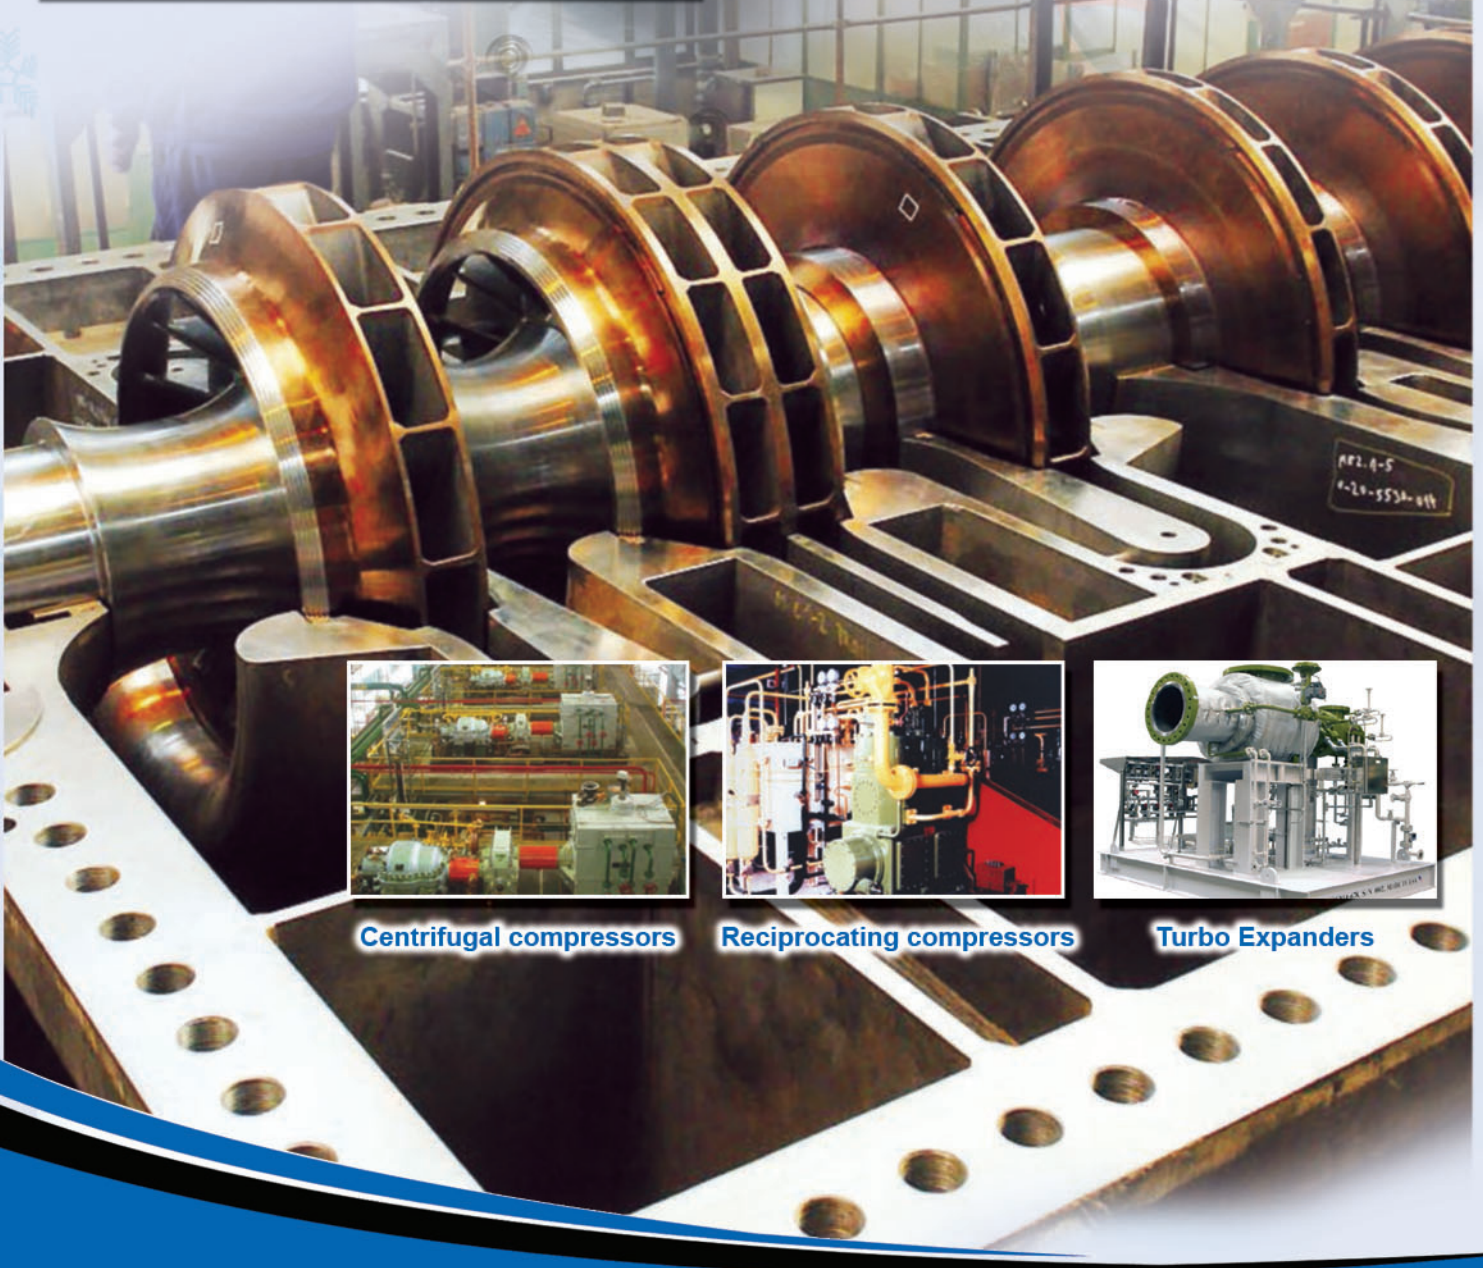

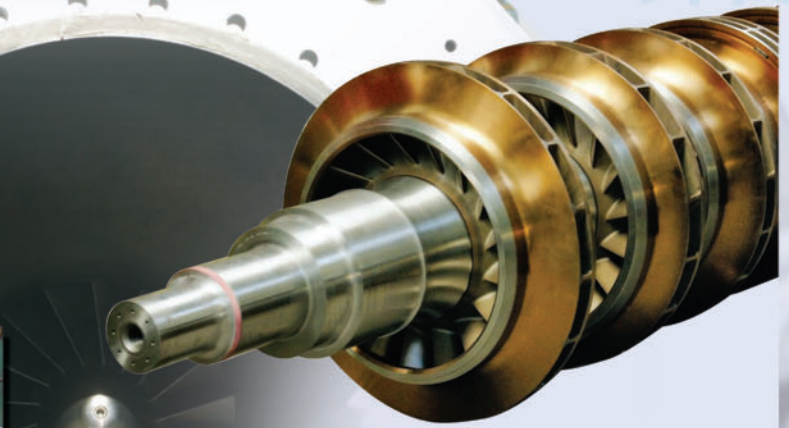

Our ever increasing workforce speaks strongly of the values that are integrated within our company.

Unity in diversity !
People from different
cultures &
different countries
bring their
diverse experience
to the company

Compressors Expanders Blowers

Centrifugal compressors

Reciprocating compressors

Turbo Expanders

OIL INJECTED COMPRESSOR PACKAGES

APPLICATIONS:

SOUR GAS HANDLING,
FLARE GAS RECOVERY,
GAS BOOSTING,
FLASH GAS,
GAS RE-LIQUEFACTION,
GAS GATHERING,
GAS RECYCLING.

OIL FREE COMPRESSOR PACKAGES

APPLICATIONS:

VAPOUR PROCESSES,
RECOMPRESSION,
GAS GATHERING,
SOUR GAS HANDLING,
GAS RE-LIQUEFACTION,
AND FLARE GAS RECOVERY.

**SMALL SIZE
STANDARD COMPRESSOR**

**MEDIUM SIZE
API COMPRESSOR**

LARGE SIZE API COMPRESSOR
